

CREATE IBM WATSON IOT PLATFORM AND DEVICE

Date:	18th NOVEMBER 2022
Team ID:	PNT2022TMID04294
Project Name:	GAS LEAKAGE MONITORING AND ALERTING SYSTEM FOR INDUSTRIES

Viswanathan R , Tarrun R , Shri Gokul E , Kishore A D

The screenshot displays the IBM Cloud dashboard interface. At the top, there's a navigation bar with the IBM Cloud logo, a search bar, and links for 'Catalog', 'Manage', and 'Viswanathan R's Account'. Below this, the 'Dashboard' section is visible, featuring a 'For you' section with several recommended resources and services. These include 'Build' (Explore IBM Cloud with this selection of easy starter tutorials and services), 'Build a web app with Watson Speech to Text', 'Get Started with Watson Studio', 'IBM Watson Internet of Things Platform', 'Build a Virtual Private Cloud (VPC)', and 'Incorporate DevOps into your process'. Each resource card includes a brief description, a 'Getting started' button, and a time estimate. Below the 'For you' section, there are four more sections: 'News' (Introducing Badges to IBM Cloud Certification, Announcing IBM SevOne Network Performance Management Version 6.4, IBM Named a Leader in Gartner Magic Quadrant for Full Life Cycle API Management, IBM to Introduce a New Incident Management), 'Recent support cases', 'Planned maintenance', and 'IBM Cloud status' (View all). The bottom of the dashboard shows a Windows taskbar with various application icons and the system clock indicating 08:10 AM on 19-11-2022.

IBM Watson IoT Platform Journey

✓

Lite

The Lite service plan provides a lightweight development environment to get you started with the connectivity capabilities of Watson IoT Platform.

- Free
- 200 MB data-transfer limit

○

Non-Production

The Non-Production service plan is a full-featured, fully-integrated offering that enables you to explore Watson IoT Platform to see how the service can fit into your IoT environment.

- Starts at \$500 per month
- Capacity limit based on device type

○

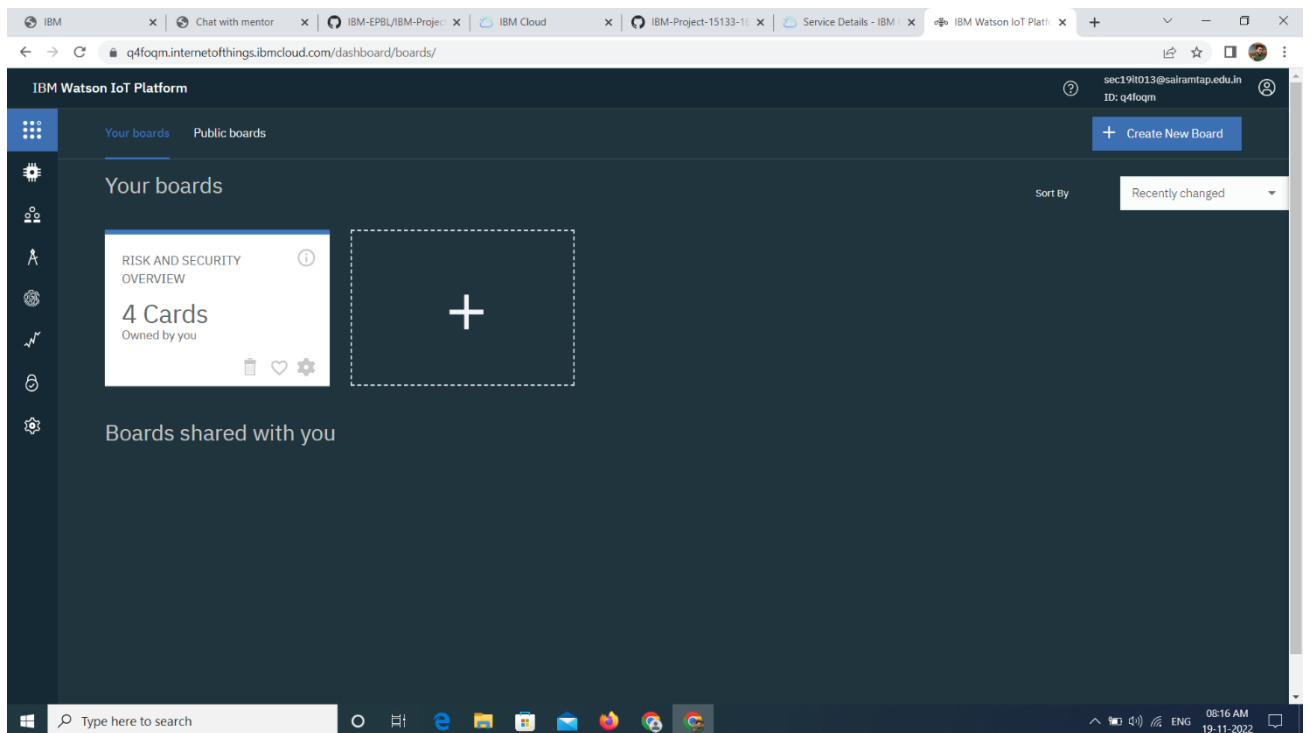

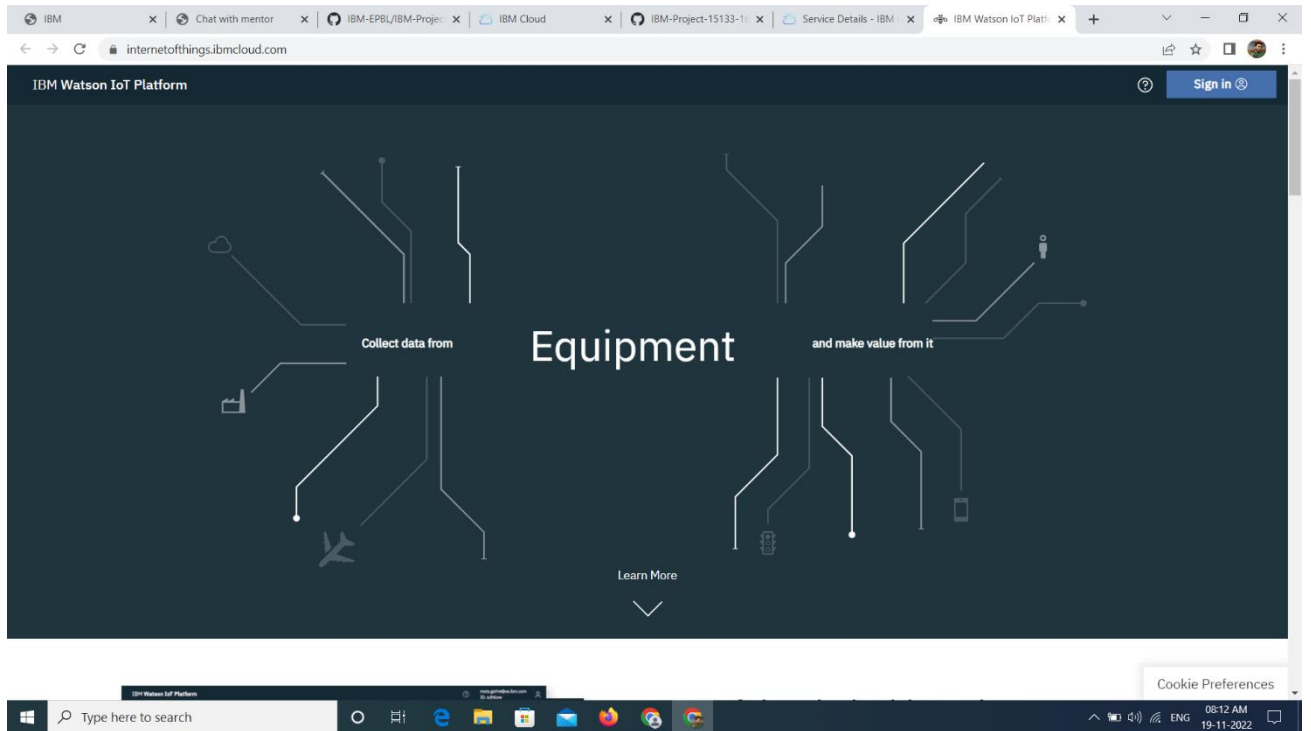

Production

The Production service is a fully managed SaaS offering that enables you to manage and analyze enterprise IoT data.

- Includes IBM Service & Support
- Pricing based on number of devices per
